As you may be aware, UK residents who are within the charge to UK Income Tax and participants of the above fund, are required to report their share of taxable income to HMRC when completing their tax return

For UK tax purposes, it should be regarded as transparent for income purposes (see IFM12252). Broadly, this means that for tax purposes a UK resident investor should be regarded as having received a share of the underlying income, rather than looking at the distributions received from the Fund. As a result, the Bond Fund rules do not apply.

To this end, we enclose a detailed breakdown of the income and gains earned by the fund during the period for each applicant unit class of interest. The report below represents "sufficient information" for the purposes of both the UK reporting fund regime and the UK tax transparency regime

Please note that the information is prepared on an income tax basis, provided to all participants and does not take into account the specific circumstances and tax profile of each participant.
